The H & M Loose Leaf Typewriter Book

MADE IN U. S. A. PATENTED JUNE 4, 1907

For Typewritten Records, Sales Books, Etc.

In using this book, take out the first leaf, make needed entries thereon and, when filled, replace it AT THE BACK of the book following the leaf with leather tab marked "Front". By continuing in this manner this tabbed leaf will gradually move forward and at all times indicate the first page or beginning of the book.

After the entries are all completed, it may be permanently and securely locked or sealed by making, with a hammer and punch or sharp nail, depressions just ahead of each off-set hook as indicated on the cut. If desired, the hook end of the rod can be cut off, but it is not essential.
